Wins German Born Citizens of St. Louis by Indorsing Maine Speech.

ALLEGIANCE TO U. S. PLACED ABOVE ALL

People Eager to Show Devotion to Country, Says Nominee.

By RAY H. LEEK.

St. Louis, Sept. 2. Directly confronted with the hyphen problem to-day for the first time since the opening of the present campaign, Charles E. Hughes met it squarely by subscribing in unequivocal terms to the utterances of Colonel Roosevelt in Maine.

The result is that even the great mass of German-born citizens of this city have received the Presidential candidate enthusiastically. Spokesmen for German organizations assert that the majority of the foreign-born voters' here will cast their ballots for Hughes. Major Kiel, who is of German parent-

age, said to-night that the Hughes telegram of congratulation to Colonel Roosevelt had not impaired his strength with the German element here in any picion.

Evidence of interest in Mr. Hughes' stand on the hyphenate question was apparent as soon as the candidate's special arrived here this morning. Publication of the Hughes telegram to Colonel Roosevelt in the morning newspapers had caused St. Louis Germans to inquire whether its implied acceptance of the Roosevelt views concerning the hyphen question had been properly understood.

maintenance of the District Attorneys office."

Mr. Dooling also announced that he had uncovered a scandal involving an East Side lawyer, who, he says, mulcted the wife of David Parish, known as the Wigner of David Parish, known as the wife of David Parish, known a

his discussion, and said:
"I am not too proud to fight. Any
time our honor is attacked or the lives
of our citizens are menaced I am ready
to go to the defence of the nation."

American people in safeguarding our

american people in save and the great national concerns.

"I want to see peace with all, for we desire nothing but what is just. It is said that this Administration has kept us cut of war. There was not the us cut of war. There was not the Boston Road and 167th Street, The "The teachers of political science". desire nothing but what is just. It is said that this Administration has kept us out of war. There was not the slightest reason why any one should get us into war. You could not get this country into war without making most inexcusable blunders. No one wants war with the United States. Every one is disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States; we are disposed to be friendly to the United States. Every one is disposed to be friendly to the United States, there have no policies which should bring us into serious strife.

The detectives waited at the garage at the first time. The teachers of political science have an organization and they are practically all of the same mind integer to the first time. The teachers of political science have an organization and they are for the first time. The teachers of political science have an organization and they are for the first time. The teachers of political science have an organization and they are practically all of the same mind in regard to Mr. Wilson," said Professor Ogg. "They are not going to vote for him next November, even though they will tell you that he has violated the principles of political science. The first time.

"But we have honest rights, and, so far as I am concerned. I repeat that I am not too proud to fight and maintain, honest rights."

tend speedily and promptly to wounds have claimed a far greater number. Thanks to the railway, the percentage of wounded men who recover, and who can be sent back to the firing line again, is continually on the increase. A sufficient and well organized system of hospital trains, operating from suitable bases, nowadays enables the worst cases to be brought in a few hours from the field to the hospital best suited to the circumstances of the case, and in this way prompt medical attention or surgery has saved and is saving thousands of lives which would have been lost in an earlier period.

Much suffering and death is also avoided by the fact that a modern Red Cross train provides one of the most perfect methods of transporting wounded that have as yet been devised. And not only does the railway thus conserve the fighting strength of an army, but it also enables a wounded man to return to the firing line in quicker time. It is pleasing to reflect that in addition to its role as a weapon of offence, the railway also serves as an instrument for the reduction of death and suffering.

Dooling Says Big Sum Is Being Used to Defeat Prosecutor.

"I have heard," Mr. Dooling re- 1, 1917." antecedents, chairman of the Republi-

nythen question had been properly understood.

Question Put to Hughes.

Several prominent citizens even advised that a statement be issued by Mr. Hughes denying that he shared the opinions of the Colonel.

Just before the candidate's party went to the Business Men's League for luncheon, the question was put squarely up to Mr. Hughes.

"Did your telegram to Colonel Roosewelt views on hyphenates." he was asked.

"The telegram may be taken on its face value. I meant just what I said, has the reply.

In this connection it was learned that a copy of the Roosevelt speech had here in the hands of Mr. Hughes for in the league members was not made public by the president of the organization, the farmers have been demands an increase of more than a cent a quart. The league has declared that the way, who had been assigned to defend way, who had been assigned to def

Roosevelt views on hyphenates." he was asked.

"The telegram may be taken on its face value. I meant just what I said," as the reply.

In this connection it was learned that a copy of the Roosevelt speech had been in the hands of Mr. Hughes for several days. Mr. Hughes made it so obvious that he is against any foreign bern citizen who places his allegiance to another country over his duty to his adopted land that there could be no possible doubt of his meaning.

He went even further this afternoon in an address from the courthouse steps at Clayton, Mo., to three thousand men and women. He suddenly sand men and women. He suddenly stopped, changed the entire trend of his discussion, and said:

**The telegram may be taken on its blook.

Last November this lawyer was indicated for conspiracy and grand larceny, but was acquitted in May.

"What we want to know is who this lawyer is acting for in this interference," said Mr. Dooling, "We shall make a thorough invest gation and will refer the matter to the Bar Association.

District Attorney Swann has received a letter from a woman, whose name is withheld, telling of a gang of men who pose as agents of cheap portrait painters and framers and advertise for girls to travel with them. By means of drugs, the woman says, these men get the girls in their power and provided the same and women and women and women and women are supplied to the same and women and women are supplied to the same and women are supplied to the same and women and women are supplied to the same and women and women are supplied to the same and the same are supplied to the same are

The writer says she was a victim of this gang, and offers to be a witness for the District Attorney. Mr. Swann

that all that is necessary is to give direction to the splendid spirit of the Detectives Arrest Washington Man at Bronx Garage.

Coney Island Boats Continue.

The Iron Steamboat Company announced yesterday that its service to Coney Island and Rocsaway Beach would be continued indefinitely. The management also said that, contrary to rumors, the service to the fishing banks would not be discontinued on Labor Day, but would continue until after the close of the cod fishing season.

FARMERS RAISE

John J. Dillon, State Commissioner of Foods and Markets, will serve on the big milk distributers of New York this week notice of an advance in the cost price of milk. After a meeting of the Dairymen's League held in Poughkeepsie last night Jacob S. Brill, its president, announced that a uniform minimum price had been agreed upon. Commissioner Dillon several days ago agreed to act for the dairymen.

"The executive committee," said Mr. Brill, "has arranged to sell the milk Assistant District Attorney Dooling for the members of the Dairymen's said last night he had evidence of a League through the agency of the New 'slush fund" raised in 'he underworld York State Department of Foods and to defeat the prosecutor's investiga- Markets and has agreed upon a minition and hire counsel to defend influ- mum uniform price, approved by the ential "white slavers" now under sus. board of directors, for a period of six months, from October 1, 1916, to March

WILSON'S DOUBLE SUPPORTS HUGHES

Prof. Ogg Says Political Science Teachers Consider President a Failure.

The applause that greeted this remark was so great that it was necessary to pause for several minutes before the speaker could proceed. That this audience, made up largely of German-Americans, should agree with such a sentiment came as a surprise to those about Mr. Hughes. He continued in the same vein, however, as soon as he could make himself heard.

"We have in this country the driving force of a splendid patriotic feeling," he raid. "I have observed throughout the land how eager the people are to show the intensity of their devotion to the institutions of our country. There is no lack of patriotic sentiment in the United States. I believe profoundly that all that is necessary is to give direction to the splendid spirit of the country that all that is necessary is to give direction to the splendid spirit of the specific that the specific

NEW TINPLATE PROCESS

Adopting Method. Cardiff, Wales, July 30.—The timplate

industry is about to undergo a revolutionizing process owing to the introduction of a new method of tinning and preparing plates for tinning, according to an announcement made by the Mellingriffith Tinplate Works, in South Wales. The process, now said to be in successful operation, dispenses with the necessity of white pickling, and the white annealed plates, after being separated, are, without handling, taken up by machinery and picked, washed, turned, cleaned and piled. It is asserted that the new method increases the production of tinplates in the proportion of more than two to one as compared with the ordinary process. duction of a new method of tinning as compared with the ordinary process.
